\*Includes LEED-NC, LEED-CI and other commercial rating systems. Note that in addition to the Credits listed above, products may - in rare instances because we are in California and more than 500 miles from most hardwood forests - qualify for MR5 (regional materials) depending on where the project is located relative to manufacturers and forests of origin. They also may contribute toward Innovation in Design points depending on how much LEED-compliant wood is used in the project overall.

\*\* MF= Multifamily SF= Single Family

\*\*\* For glue-down installations, must be used with adhesives with < 50g/L VOCs.

\*\*\*\* Special Order.
